

§ 136.2

an estimated expenditure of \$450,000.00 for a project then considered as covering approximately 60,000 acres.

§ 136.2 Construction costs.

The program of rehabilitation has now been completed at a cost of \$419,186.52. This amount, chargeable on an equal per acre basis against 60,000 acres, amounts to a rate of \$6.986 per acre, which rate is hereby determined to be the per acre cost to be repaid to the United States under the 1936 contracts.

§ 136.3 Repayment of construction costs.

Under the terms of the contracts, the landowners agreed to repay the construction cost in forty (40) equal annual installments. Therefore, the annual per acre installment is hereby fixed at seventeen and one-half cents (17½ cents) per acre, due and payable on December 1st of each year, the first payment being due on December 1, 1955. Under section 4 of the repayment contracts of the landowners and the act of March 10, 1928 (45 Stat. 210), the charges remain a lien against the lands until paid.

PART 137—REIMBURSEMENT OF CONSTRUCTION COSTS, SAN CARLOS INDIAN IRRIGATION PROJECT, ARIZONA

Sec.

137.1 Water supply.

137.2 Availability of water.

137.3 Construction charges.

137.4 Future charges.

137.5 Construction costs limited.

137.6 Power development.

137.7 Private ownership defined.

137.8 Indian lands excluded.

AUTHORITY: Sec. 5, 43 Stat. 476.

SOURCE: 22 FR 10645, Dec. 24, 1957, unless otherwise noted. Redesignated at 47 FR 13327, Mar. 30, 1982.

§ 137.1 Water supply.

The engineering report dealt with in section 1 of the act of June 7, 1924 (43 Stat. 475) and other available records show that the storage capacity of the San Carlos reservoir created by the Coolidge Dam and the water supply therefor over a period of years will pro-

25 CFR Ch. I (4–1–99 Edition)

vide for the irrigation of only 80,000 acres of lands in Indian and public or private ownership within the San Carlos irrigation project, the balance of the water supply needed for the additional 20,000 acres of the project to be provided for by recaptured and return flow water and by means of pumping the underground supply. The cost of providing the proposed supply and of operating the works for this latter acreage to be equally distributed over the entire 100,000 acres of the project regardless of where the works are placed and operated.

§ 137.2 Availability of water.

Pursuant to section 3 of the act of June 7, 1924 (43 Stat. 475), requiring the Secretary of the Interior by public notice to announce when water is actually available for lands in private ownership under the project and the amount of the construction charges per irrigable acre against the same which charges shall be payable in annual installments as provided for therein, this public notice, of which § 137.1 is made a part hereof, is hereby given:

The date when a reasonable water supply is actually available for lands in private ownership under the San Carlos irrigation project is hereby declared to be the 1st day of December 1932.

§ 137.3 Construction charges.

Each acre of land in private ownership of said project is hereby charged with \$95.25 of construction cost assessable thereto at the date hereof (Dec. 1, 1932), which sum is based upon 50,000 acres of such privately owned lands, making a total charge or assessment due from the owners thereof of \$4,762,250 on this date (Dec. 1, 1932), excluding the cost of operation and maintenance for the calendar year of 1933 which may be carried into construction cost as provided for by section 3 of the act of June 7, 1924 (43 Stat. 476), and also excluding interest at the rate of 4 percent which is charged against such lands by said act. Of the 50,000 acres constituting the lands in private ownership within the said project only 46,107.49 acres have at this date (Dec. 1, 1932) actually been designated as coming within the project. Should this
